

CALL FOR PAPERS

**NUSOD
2023**

SEPTEMBER 18-22, 2023

POLITECNICO DI
TORINO

Torino, Italia

We are pleased to announce the upcoming conference on Numerical Simulation of Optoelectronic Devices (NUSOD 2023), which will be held on September 18-22, 2023 at Politecnico di Torino, Torino, Italy. This conference aims to bring together engineers, physicists, and practitioners from academia and industry to present and discuss the latest advances in the modeling of optoelectronic devices, materials, and applications.

Topics of interest include, but are not limited to:

- Semiconductor lasers
- Light emitting diodes
- Optical modulators
- Optical amplifiers
- Photodetectors
- Solar Cells
- Photonic Devices and Circuits
- Optoelectronic Integrated Circuits

We invite submissions of original research papers and review articles in all areas related to the modeling of optoelectronic devices. Accepted papers will be presented at the conference and published in the conference proceedings.

We look forward to receiving your submissions and to welcoming you in Torino. For more information, please visit the conference website nusod.net.

NUSOD 2023 will be followed by the VCSEL Day 2023, on September 22.
